

The Catwalk Challenge

This new challenge is ideal for teams who want to have fun, explore their creativity and work together to produce a slick, professional catwalk show that would do justice to the catwalks of Paris, Milan, New York or London.

Working from a treasure trove of fabrics, trims, accessories, make-up, a communal stationary supply and anything they can scavenge from the venue, each team must design and produce a finished 'His and Hers' collection. Meanwhile the team's production crew will get busy selecting music, working out choreography, choosing backdrops, sourcing props and ensuring that their team's design gets the maximum impact on stage. Communication within the team is key to success.

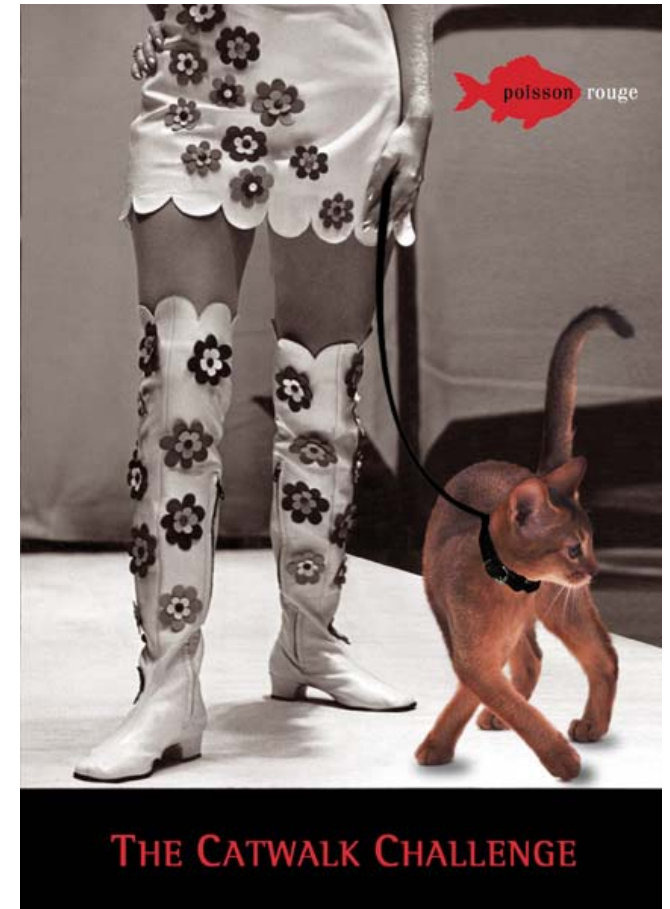

Working under tight time restrictions with assistance and guidance from professional fashion stylists, show producers and team-building experts, each team will first need to plan and identify who within their number will perform which tasks. These tasks include:

- Clothes design
- Modelling
- Wardrobe / Hair & Make Up
- Choreography
- Back projection / images
- Music

The finale is **no** amateur dramatics event. A full glamour show with special effects, lighting, music and even paparazzi will complete the day and exceed expectation. The panel of judges will then select the winning designs and award the designer of the year trophy.
