

The Fireworks Challenge

Set your team the ultimate challenge - to paint the sky with fire! Our fully trained staff will work with you to devise a safe and thrilling firework display for any occasion.

There are a number of different parts to this activity giving it plenty of flexibility - all you need is a venue where we can launch fireworks and an event which runs into the evening.

Firework School: Here the teams learn about all the different kinds of fireworks: the colours, the patterns, the effects, the power, the sounds, the speed, the height, the costs, etc.

Test Bed: we take the teams through a series of exercises where they win the cash they need to buy the fireworks. We test their teamwork skills.

They design, build and test simple gadgets. We teach them how to handle and use the fireworks safely.

All the time they need to be thinking about their display. How are they going to spend their money? What fireworks do they want to buy?

In what order are they going to fire them? How can they put together the best display and what will it look like?

The Auction: It all gets very competitive as the teams bid for the Fireworks they want - Two Gold Brocades or a Catherine Wheel? Mines or Rockets? Loud, pretty or both together?

Launch Pad: Teams nominate people to lay out the display under the close supervision of our experts. And each team elects a firer.

The Finale: Teams go head to head – and there's only one winner. The displays can be before or after dinner and, if budget allows, we will end the evening with a high impact aerial display by the professional firers.

The whole event is fully insured and we carry out full safety checks at all stages before, during and after the event.

Most importantly we guarantee this activity will blow your minds!
